Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-13 are allowed.

As for independent claims 1 and 11, the prior art, alone or in combination, does not teach or fairly suggest a two dimensional matrix composed of rows and columns of tiles, wherein either the rows of tiles or the columns of tiles correspond to overall program ratings and either the rows of tiles or the columns of tiles correspond to specific program content indications and depicts highlighting of individual tiles or groups of tiles based on the cursor movement commands. As for the most pertinent prior art of record, the Abecassis (USPN 5,610,653) reference shows a segment descriptive structure (Fig. 1A) that includes various content categories 111 and a coding scale 112 (col. 7, line 61 – col. 8, line 8). The coding scale 112 consists of four different categories, i.e., "None," "Implied," "Explicit," and "Graphic." However, while the Abecassis reference's coding scale 112 may mirror the rating system utilized by the MPAA (col. 8, lines 1-8 and Figs. 1A and 1D), the differences are significant, and there is no suggestion to modify or undue the more descriptive data structure as disclosed by Abecassis back to a MPAA program rating type structure. One of ordinary skill in the art would be unable to say that the rating of a program is, i.e., "Implied" (see Fig. 1A coding scale 112). The Abecassis reference does not teach or suggest a two dimensional matrix composed of rows and columns of tiles, wherein either the rows of tiles or the columns of tiles correspond to **overall program ratings** and either the rows of tiles or the columns of tiles correspond to specific

program content indications and depicts highlighting of individual tiles or groups of tiles based on the cursor movement commands. In the applicant's invention, a two dimensional matrix composed of . . . **overall program ratings** and . . . specific program content is disclosed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
